Safety training

Instructor-Led Safety Training

Instructor-led safety training is interactive and provides opportunity for practice as employees are trained to help save lives, reduce injuries and accidents, and lower liability in the workplace.

UniFirst First Aid + Safety's network of certified instructors provides expert, hands-on, instructor-led training at your facility or at one of our authorized training centers near you.

Online Training

Online safety training is a convenient way to train your employees to help save lives, reduce injuries and accidents, and lower liability in the workplace. Online training saves time and money by taking less time away from an employee's workday. Online training allows employees the flexibility to access training when and where they have the time. Employees can pause, reread, or proceed through content at their own pace.

ENGAGING CONTENT

Using a powerful combination of audio, full-motion video, text, and colorful graphics, our online courses provide the most cost-effective safety and regulatory compliance training available today. Courses are divided into a number of logical sections so information is easily understood and retained.

NEED AN LMS?

UniFirst provides a complimentary LMS (Learning Management System) so you can monitor student training and keep track of your compliance in one simple location. Gone are the days of spreadsheets and data entry.

ALREADY HAVE YOUR OWN LMS?

All of our online courses can be installed and run on any SCORM conformant learning management system.

DVD COURSES

DVD courses combine up-to-date content filmed on-site in real workplace situations. DVDs are an easy way to train your employees to help save lives, reduce injuries and accidents in the workplace, and lower liability. A cost-effective solution for safety training with over 300 titles.

OSHA 10 and OSHA 30

Online OSHA 10- and 30-hour training is available in both general industry and construction. This is the most efficient and easy-to-use means of obtaining your DOL/OSHA course completion card.

HAZWOPER

Meet compliance needs with HAZWOPER 40-hour, 24-hour, and eight-hour refresher courses and receive a HAZWOPER Proof of Completion Certificate.

COURSES:

- AED (automated external defibrillator)
- Bloodborne Pathogens (BBP)
- Confined Space Entry
- Construction Fall Protection
- CPR/AED/First Aid
- Eye Protection
- Fire Extinguisher
- Fire Extinguisher & Fire Safety
- Forklift Safety
- Hazard Communication
- Lockout/Tagout
- Machine Guarding
- OSHA Compliance Training
- Personal Protective Equipment (PPE)
- Powered Industrial Truck Safety and Respiratory Protection

AED and CPR training

900 PEOPLE DIE EVERY DAY IN THE U.S. OF SUDDEN CARDIAC ARREST (SCA)

Double a victim's chance of survival with effective bystander CPR and defibrillation provided immediately after cardiac arrest.

UniFirst First Aid + Safety is proud to offer MEDIC FIRST AID® BasicPlus combined training. The MEDIC FIRST AID® training process, based on proven instructional design theory and practice, utilizes "hearing, seeing, doing, speaking, and feeling" methodology to create student-centered learning and a low-stress learning environment.

Two Easy and Convenient Ways to Teach Your Team CPR

Blended Learning – Minimize downtime for your team. Students take an online course. When successfully completed, an instructor will evaluate the student's skill with a "skills test." Students learn anywhere, on any device, on their schedule.

On-site Training – Want a more traditional interactive on-site session? This classroom-style training is a great solution for traditional-style "group" trainings. Our instructors and content always get high praise. We can come to your facility or you can come to a UniFirst training center near you.

UniFirst Offers Several CPR Courses

Layperson

This course covers basic CPR/first aid and AED certification.

Healthcare Providers and First Responders

This course covers everything required for healthcare professionals and first responder CPR certification including Basic Life Support (BLS) certification.

CORE CLASS TOPICS:

- First aid provider
- Legal considerations
- Recognizing an emergency and deciding to help
- Personal safety
- Disease transmission and universal precautions
- Emergency medical services (EMS)
- Respiratory and circulatory systems
- Sudden cardiac arrest and early defibrillation
- Chain of survival
- Chest compressions
- Rescue breaths
- Primary assessment: responsive person
- Primary assessment: unresponsive person
- Unresponsive and breathing: recovery position
- Unresponsive and not breathing: CPR
- Automated external defibrillators
- Basic AED operation
- Troubleshooting and other considerations
- Choking
- Secondary assessment*
- Control of bleeding
- Tourniquets*
- Internal bleeding
- Managing shock
- Head, neck, or back injury
- Swollen, painful, deformed limb
- Splinting*
- Burns
- Warning signs of sudden illness
- Altered mental status
- Stroke
- Diabetic emergencies
- Seizure
- Breathing difficulty, shortness of breath
- Asthma
- Metered-dose inhalers*
- Nebulizers*
- Severe allergic reaction
- EpiPen® auto-injectors*
- Pain, severe pressure, or discomfort in the chest
- Severe abdominal pain
- Poisoning
- Heat exhaustion
- Heat stroke
- Hypothermia
- Frostbite
- Emergency moves
- Emotional considerations

*Optional program content.

AED programs

WHAT IS AED PROGRAM MANAGEMENT?

To rescue a victim of cardiac arrest, you need an AED (automated external defibrillator) that is ready to deliver a lifesaving shock. But just having an AED is not good enough. To save a life, you have to make sure your AED is working and will be in the hands of a trained volunteer responder.

If that sounds simple, you may not realize all you need to know and do to set up and maintain a successful AED program.

Automate Your Program

The best solution for high-quality AED program management is simple: Let PlusTrac™ guide you through setup, and then let us do the worrying. Take action only when you are alerted that it is needed. PlusTrac can be your guarantee that your AED will always be ready, compliant, and supported.

PlusTrac is an AED program management service with an online software solution and mobile app that provides everything you need to effectively manage your AED.

Professional AED program solution includes PlusTrac online management program for a single (1) AED, complete client implementation support, EMS registration and agency filings, as well as legislative and regulatory support. A dedicated account manager will work directly with you to establish an effective program and to help ensure compliance. Medical direction and prescription are included.

ARE YOUR AEDs READY AND COMPLIANT?

Here are some important questions for anyone managing AEDs:

- Are you certain every one of your AEDs is ready and will work in an emergency?
- Do you know the current self-test status of every AED in your program?
- Are you checking AED statuses regularly?
- Do you know when to replace the pads and batteries for each of your AEDs?
- Are you tracking the responders assigned to your AEDs?
- Who will you call in order to train your responders in using AEDs and CPR?
- Do you know when your responders will need re-training to maintain their rescue skills?
- Can you quickly and accurately review the current status of all your AEDs and trained responders?

Having trouble answering these questions? PlusTrac is the answer.

EARLY CPR AND DEFIBRILLATION SAVES LIVES

Sudden Cardiac Arrest (SCA) is not a heart attack. It is a condition where the heart abruptly and unexpectedly ceases to function. SCA is an “electrical problem” caused by Ventricular Fibrillation, a heart rhythm disorder. In SCA, the heart is no longer able to pump blood to the rest of the body.

ZOLL AED PLUS®

Approximately 50% of sudden cardiac arrest (SCA) cases initially require a shock. All rescues require high-quality CPR. ZOLL's patented Real CPR Help® provides rescuers with integrated, real-time CPR feedback on depth and rate of compressions for high-quality CPR. In addition to Real CPR Help, the AED Plus offers:

- CPR-D•padz™, a one-piece, pre-connected pair of electrodes with Real CPR Help
- Intelligent Pediatric Capability: when connected, the AED Plus recognizes that a pediatric rescue is in progress.
- Low cost of ownership, including more efficient lifetime maintenance from longer lasting batteries and longer lasting pads. (Pads last five years.)
- Voice and text prompts to guide rescuers
- Seven-year device warranty option
- Weekly and monthly self-tests by default — or customize as often as daily
- IP55 rating for protection against dust and water
- ZOLL's Rectilinear Biphasic Waveform

LIFEPAK CR® PLUS AED

Featuring the same advanced technology trusted by emergency medical professionals — yet simple to use — the fully automatic LIFEPAK CR Plus AED combines easy two-step operation with just the right level of guidance. The ClearVoice™ audio prompt technology enhances sound quality for better clarity in loud and chaotic environments. Also available in a semi-automatic version. Features an eight-year warranty.

- Biphasic waveform with impedance compensation and highest-available escalating energy 200/300/360J
- Prompts to start CPR
- Electrode options: Pre-connected QUIK-PAK™ electrodes compatible with LIFEPAK® EMS devices
- Included accessories: Two sets of electrodes, carrying case, CHARGE-PAK™ battery charger, Ambu® Res-Cue Mask® Kit

AED products

PHILIPS HEARTSTART FRx

The HeartStart FRx AED from Philips is a state-of-the-art defibrillator that comes with an eight-year manufacturer's warranty. This unique model is the only one on the market with an optional infant/child key, which you can use with adult pads for pediatric patients. This model is both lightweight and rugged, designed to be durable without slowing you down.

- Semi-automatic AED
- Effective high-current/low-energy therapy
- 500 lb. crush test rating/one meter drop
- Rugged design, IP rating 55 (dust and water)
- Metal and wet surface designation
- 200 shocks/four-hour operating time

First aid cabinets

MEETING YOUR REQUIREMENTS, MEETING OSHA REGULATIONS

At the heart of every company's emergency plan, there should be a properly stocked first aid cabinet. UniFirst First Aid + Safety cabinets are built tough on the outside of durable steel for years of service. Yet inside, the contents are sensitive to the needs and distress of your employees. Treat your employees' discomforts with quality products for:

- Minor cuts and abrasions
- Personal discomforts
- Burns (thermal or chemical)
- Eye irritation
- Trauma

Our cabinets are available in a wide variety of sizes and content selections to match your company requirements.

ANSI STANDARD Z308.1-2015

OSHA refers to the ANSI standard as an example of minimal contents for first aid kits. "ANSI Z308.1-2015" indicates the kits that meet the new ANSI standard when properly maintained.

THREE-SHELF CABINET

MEETS ANSI Z308.1-2015 Class B

An ideal cabinet for small businesses, shipping and receiving departments, or other remote locations of your facility. Convenient door pouches and a wide assortment of product will give you confidence in your ability to handle emergencies.

1150 16"H x 13.5"W x 5.5"D

FOUR-SHELF CABINET

MEETS ANSI Z308.1-2015 Class B

A standard in the industry for over 30 years, this cabinet contains an assortment of adhesive bandages, dressings, eye care products, antiseptics, employee comfort items, and much more to meet those day-to-day mishaps at work. Convenient door pouches allow for storage of smaller items.

1155 21.8"H x 14.9"W x 5.5"D

ANSI Z308.1-2015 CLASS B KITS

Class B kits are intended to provide a broader range and quantity of supplies to deal with injuries encountered in more populated, complex, and/or high-risk workplace environments.

FOUR-SHELF WIDE CABINET

MEETS ANSI Z308.1-2015 Class B

25% more space than a regular four-shelf cabinet. Provides the same selection and variety of first aid items as the five-shelf cabinet with a smaller overall footprint.

1158 22.3"H x 19.3"W x 5.4"D

FIVE-SHELF CABINET

MEETS ANSI Z308.1-2015 Class B

This five-shelf cabinet provides the largest selection and variety of first aid products to meet the everyday treatment of accidents and injury.

1180 27.4"H x 19"W x 6.5"D

Emergency kits

JUST GRAB AND GO

An ideal addition to your first aid cabinets, these kits are designed to be your first line of defense when serious accidents and emergencies arise. Our emergency kits give you portability to injuries upstairs, downstairs, in the parking lot, at the loading dock, or wherever you need to go.

FIRST RESPONDER KIT

Contains everything you need for quick response to accidents and injuries on the job. Included are saline solution, bandages and dressings, tapes, trauma compresses, and more.

1190

FANNY PACK

Everything you need for minor first aid emergencies in our most portable pack. Features an adjustable strap to fit around the waist.

1194

TRAUMA KITS

Designed to be the first line of defense in an emergency situation. Trauma kits are made of high-impact plastic that's lightweight and extremely durable. Contains a wide variety of products to meet emergency needs.

DELUXE KIT

1196

STANDARD KIT

1195

OSHA REGULATION CFR 1910.151(b)

In the absence of an infirmary, clinic, or hospital in near proximity to the workplace, which is used for the treatment of all injured employees, a person or persons shall be adequately trained to render first aid. Adequate first aid supplies shall be readily available.

Vehicle first aid kits

There's a UniFirst first aid kit that is perfect for your needs. Whether you have a large fleet or a single truck, our kits provide on-the-spot help. Each kit can be mounted in a vehicle for safety and is water and dust resistant.

SUPER UTILITY KIT

MEETS ANSI Z308.1-2015 Class B

Excellent for large over-the-road trucks or for your small business. Versatile and functional, you'll find a variety of products for your comfort and assurance.

1125 14.9"W x 10"H x 4.6"D

DELUXE VEHICLE KIT

Ideal for your superintendent or foreman's truck or van. Easily mounts or fits behind or under a seat. Tough durable steel protects contents.

1105 13.7"W x 9.1"H x 2.4"D

MEDIUM VEHICLE KIT

Great for company delivery trucks, church vans, or even SUVs. Don't leave work without it.

1142 9.1"W x 6.4"H x 2.4"D

SMALL VEHICLE KIT

1135 7.5"W x 4.6"H x 2.4"D

ECONOMY TRUCK KIT, PLASTIC (not shown)

1133 7.7"W x 4.6"H x 2.4"D

Burn kits

Burn victims want treatment that cools the burn, relieves the pain, and protects against contamination. They also want treatments and dressings that won't stick to the wound and can be easily removed or rinsed away.

BURN KITS

Our custom burn kits offer just what you need to treat burn victims. Quick and complete care.

DELUXE KIT

1198

SMALL KIT

1197

First aid instruments

First responders need the best tools for any first aid emergency. We carry a variety of quality instruments to cover all of your needs.

BANDAGE SCISSORS

Stainless steel bandage scissors with clip.

8200 5.5"

PARAMEDIC SHEARS

Multi-purpose for cutting through leather, plastic, or fabric.

8202

SCISSORS, KIT TYPE

Stainless steel kit scissors ideal for cutting bandages quickly and efficiently.

8205 4.5"

EYE MAGNET WITH LOOP AND CASE

Remove metallic and non-metallic objects from the eye with minimal intrusion. Easy to grip.

8210

PENLIGHT

Penlight with convenient pupil gauge on side.

8212I

TWEEZERS

Individually wrapped plastic disposable tweezers.

8203

FORCEPS

Stainless steel fine-point tweezers.

8207 5"

SPLINTER TWEEZER WITH MAGNIFIER

Stainless steel tweezers featuring glass lens with 4x magnification.

8209

SPLINTER OUT

Individually wrapped sterile splinter removers in reusable hinged plastic case.

8230 10 splinter removers/pack

When assessing first aid situations, it's important to have all the triage items necessary to properly evaluate the victim's needs.

BLOOD PRESSURE UNIT
Adult. Case included.
8213

STETHOSCOPE
Latex free. Delivers optimum acoustics.
8215

DIGITAL THERMOMETER
Oral. Case included.
8217

FEVERSCAN®
Forehead thermometer.
79233B

Infection control

Protecting the health of your first responders is easy when you have the right products on hand.

BODILY FLUID CLEAN UP KIT
Portable plastic kit containing a variety of products for personal protection when cleaning up bodily fluids. Kit includes: gloves, antimicrobial wipes, absorbent powder, biohazard bags and ties, mask with face shield, disinfectant, apron, plastic goggles, scoop, and scraper.
2803T

BODILY FLUID DISPOSAL KIT
A complete variety of products for personal protection, clean up, and disposal when dealing with biohazard incidents. Kit includes: gloves, antimicrobial wipes, absorbent powder, biohazard bags and ties, mask with face shield, disinfectant, apron, shoe covers, disposable towels, scoop, and scraper.
1216

Eye care

We offer a variety of eyewash products to suit your facility. Wall-mounted or table-top eye wash stations ensure your employees can be treated in an efficient manor to minimize injury.

PURE FLOW 1000® EYEWASH STATION

Self-contained gravity-fed emergency eyewash station that delivers Eyesaline®, a purified solution formulated to establish pH and isotonicity for safe and effective use. Provides a constant flow rate for the full 15 minutes.

- Lockable to help prevent tampering.
- Integral reservoir captures its own waste fluid, eliminating potential safety hazards.
- Safety sealed, activation straps display expiration date and batch number.
- Includes mounting bracket and 8" x 10" eyewash sign.

4115 30"H x 29"W x 22.5"D

*Cartridges sold separately. Meets ANSI Z358.1998 standard.

PUREFLOW 1000® REPLACEMENT CARTRIDGES

4116 Two per pack

FENDALL 2000® EYEWASH STATION

100% sterile wall-mounted emergency eyewash system.

- 100% sterile saline from a 100% sterile delivery system.
- Easy-to-install single cartridge with 24-month life saves time and money on replacements and frequent inspections.
- Built-in alarm system sounds when the unit has been activated and again when the injured individual has completed the required 15-minute flush.
- Sleek assembly that fits nearly anywhere.
- Highly portable and easily moved when work stations move.
- Built-in reservoir collects waste solution for safety and easy disposal.
- Easy-view side windows to check sterile solution expiration date and key contact information.
- Meets ANSI Z358.1-2004 15-minute flush requirement for primary eyewash stations.
- Sterile saline solution adheres to FDA requirements for providing sterile eyewash solution in self-contained emergency eyewash stations.

2000 32"H x 17"W x 14"D

*Cartridges sold separately. Meets ANSI Z358.1998 standard.

FENDALL 2000® STERILE REPLACEMENT CARTRIDGES

Sterile, buffered, pH-balanced saline solution offers unmatched safety.

- Safety-sealed cartridges last for 24 months (4–8 times longer than other refill solutions).
- Each cartridge contains 3.5 gallons of Eyesaline solution.
- Integral cartridges, hoses, and nozzles are one replacement unit guaranteeing a non-contaminated wash.

2050 24"H x 16"W x 9"D

PORTA STREAM II® EYEWASH STATION

The Porta Stream II® eyewash station offers versatile portability and a full 15 minutes of uninterrupted flushing. It is self-contained and features a nozzle strap that is easy to remove to activate flushing. High visibility makes it easy to find in an emergency.

We can provide regular inspection and a service program.

4100 24"H x 19.75"W x 19"D

**Meets ANSI standards for 15-minute flush.*

PORTA STREAM II® DUST COVER (not shown)

4100DC

EYEWASH ADDITIVE FOR PORTA STREAM II

Mix with clean, potable water (10:1 ratio). One bottle (8 oz.) suitable for 14–16 gallons. 30-month shelf life (unopened).

4101 8 oz. bottle

FENDALL FLASH FLOOD® EYEWASH STATION

Fendall Flash Flood utilizes sealed cartridges that contain one gallon of preserved and pH-balanced Sperian Saline solution. The Fendall Flash Flood delivery system offers immediate, hands-free eye flushing, and is portable to meet the needs of changing workplace hazards. Removing the pull strap easily activates the system, while dual nozzles provide flushing to both eyes simultaneously. When activated, Fendall Flash Flood delivers saline solution for three minutes.

4140 20"H x 10.5"W x 14"D (with cartridge)

**Does not meet ANSI 15-minute flushing requirement; intended to support, not replace, primary eyewash devices.*

FLASH FLOOD EYESALINE® REPLACEMENT CARTRIDGES

41411 One gallon

OSHA REGULATION CFR 1910.151(C)

Where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use.

Eye care

Our portable eye and skin solutions allow you to keep buffered, sterile eyewash on hand wherever it may be needed to provide immediate care until emergency care can be rendered.

EYE AND SKIN STATION

This portable unit contains a flush bottle with cup as well as two 16 oz. bottles of eye and skin solution. Included are eye pads and tape, and an eye magnet with loop to aid in the removal of foreign particles. Wall mounted or portable.

4125

SINGLE WALL STATION

Provide immediate flushing until the injured person can be helped at a primary emergency eyewash device. Contains one 16 oz. sterile eyewash bottle.

4114

EYEWASH SOLUTIONS

Single use, buffered, isotonic saline.

- 4110P** Four 1 oz. bottles
- 4105** 4 oz. bottle
- 4106** 8 oz. bottle
- 4107** 16 oz. bottle

DOUBLE WALL STATION

Provide immediate flushing until the injured person can be helped at a primary emergency eyewash device. Contains two 32 oz. sterile eyewash bottles.

4127 DOUBLE WALL STATION

4124 32 oz. refill

REFRESH PLUS®

Lubricant eyedrops provide soothing dry-eye relief that works.

- 23672** 30/box
- 23672P** 5/pack

EYE CUPS

4150 5/vial

Speakman® plumbed eye/face wash stations and deluge showers help provide immediate relief to victims of chemical burns. The Speakman's soft, aerated water flow provides soothing, wide coverage and the stay-open ball valves ensure hands-free operation once activated. All products meet ANSI Z385.1 compliance.

SPEAKMAN® DELUGE SHOWER

Impeller action deluge showerhead features a vertical overhead supply with stay-open ball valve, allowing hands-free operation once the shower has been activated. The high visibility yellow pull rod makes finding the SE-220 easy in an emergency.

SE220

SPEAKMAN® SELECT EYE/FACE WASH STATION

Soft aerated sprays allow users to comfortably flush eyes for the ANSI-recommended 15 minutes. A stainless-steel push handle activates the unit. The SE-400 is a wall-mounted unit with a stainless steel bowl and comes complete with a wall-mount bracket.

SE400

SPEAKMAN® TRADITIONAL EYE/FACE WASH STATION

Aerated water flow allows soft flowing water to provide wider coverage, cleaning full facial areas. Unit is equipped with a stay-open ball valve activated by a paddle handle allowing hands-free operation once the eye/face wash has been activated. The SE-490 is a wall-mounted unit with a stainless steel bowl.

SE490

SPEAKMAN® TRADITIONAL EYE/FACE WASH STATION

Aerated water flow allows soft-flowing water to provide wider coverage, cleaning full facial areas. Unit is equipped with a stay-open ball valve activated by a paddle handle allowing hands-free operation once the eye/face wash has been activated. The SE-580 is a wall-mounted unit with a yellow bowl.

SE580

SPEAKMAN® COMBINATION UNIT

Features an impeller action deluge showerhead and a 1.25" galvanized steel stanchion. The SE-675 model features a stay-open ball valve, allowing hands-free operation once the shower has been activated, and an SE-575 eye/face wash, without a bowl. The high visibility yellow pull rod, makes finding the SE-675 easy in an emergency.

SE675

Green Guard relief tablets

UniFirst First Aid + Safety offers our own proprietary Green Guard products, which are a key part of your first aid program. When employees don't feel well, they don't perform well. Green Guard relief tablets provide the relief that keeps them on the job and also offer complete bilingual English/Spanish drug facts and instructions.

To ensure safety, all Green Guard relief tablets are supplied in tamper-evident packets. Each product box and inside packet is color coded for positive identification. Each packet provides directions for use, active ingredients, indications, and lot number with an expiration date. There are a variety of products and sizes to meet your specific needs.

IBUPRO RELIEF

Temporarily relieves minor aches and pains and reduces fever due to: arthritis, toothache, muscular aches, backache, menstrual cramps, headache, and the common cold.

2250 100/box
2251 250/box

NON-ASPIRIN RELIEF

Maximum-strength relief provides temporary reduction of fever and relief of aches and pains associated with: headaches, muscle aches, the common cold, menstrual cramps, minor arthritis pain, toothache, and backaches.

2224 100/box
2222 250/box

ADVANCED SINUS RELIEF

A non-drowsy formula. Temporarily relieves the following symptoms associated with the common cold, sinusitis, or hay fever: nasal congestion, sneezing, runny nose, low fever, and minor aches and pains.

2206 100/box
2207 250/box

PAIN AND ACHE RELIEF

A fast, effective formula for temporary relief of minor aches and pains associated with: headaches, minor arthritis pain, muscular aches, colds, toothache, and menstrual cramps.

2209 100/box
2210 250/box

PMS RELIEF

For the temporary relief of minor aches, pains, and discomfort that may occur a few days before and during the menstrual period.

2270 100/box
2271 250/box

MAXIMUM-STRENGTH STOMACH RELIEF

Assorted berry flavor. Provides maximum-strength relief from acid indigestion, heartburn, and upset stomach.

2280 100/box
2281 150/box

COUGH AND COLD² RELIEF

Multi-symptom ingredients temporarily relieve these symptoms associated with the common cold or flu: nasal decongestion, headache, fever, body aches, and pains. Contains an expectorant to help create a productive cough.

2216 100/box

2217 250/box

CHERRY COUGH DROPS RELIEF

A medicated, soothing drop for the temporary relief of symptoms that occur with colds or inhaled irritants. For the temporary relief of coughs. Non-narcotic.

2241 50/box

2242 125/box

ALLERGY² RELIEF

For the temporary relief of nasal congestion due to a cold, hay fever, or other respiratory allergies. Temporarily relieves stuffy nose, sinus congestion, and pressure.

2230 100/box

2231 250/box

BENEFITS OF OFFERING UNIFIRST'S GREEN GUARD RELIEF BRAND TABLETS TO YOUR EMPLOYEES

Increased Productivity: Pain and discomfort often lead to decreased productivity and increased absenteeism, costing employers far more than what is spent on first aid tablets. Green Guard's tablets cost pennies per dose and can help lower absenteeism and increase productivity.

Safety: By providing safe, individual, and tamper-evident unit-dose packets, employers decrease the risk of improperly shared medications and cross-contamination. Unlike some other brands, all Green Guard relief tablets are non-drowsy formulas for safe use in the workplace. An additional benefit of our service is that on each visit, our trained representatives ensure that no products in your cabinet have exceeded their shelf life.

Quality: All Green Guard relief tablets are packaged in our own state-of-the-art, FDA-registered facility. In addition to packaging our own Green Guard relief tablets, we package over 500,000,000 OTC tablets for other well-known companies.

Bilingual Labeling: All Green Guard relief tablet cartons contain directions, indications, contraindications, ingredients, and proper dosages in both English and Spanish.

Morale: Employees see and appreciate the availability of Green Guard relief tablets as a valuable employee benefit.

Liability: All of Green Guard's products, including first aid tablets, are backed by our multi-million dollar product liability insurance for added peace of mind.

ANSI STANDARD Z308.1-2015

ANSI recommends that: First aid kits contain an oral analgesic.

ANSI recommends that: Any additional over-the-counter drug product included in a first aid kit should be packaged in single-dose, tamper-evident packaging with full labeling as required by FDA regulations, and should contain no ingredients that are known to cause drowsiness.

Medique OTC medications

UniFirst First Aid + Safety stocks a variety of specialty formulas from our own proprietary Medique products, the leader in industrial over-the-counter medications.

BACK PAIN-OFF®

The maximum allowed dosage for temporary relief of back pain, muscular aches, strains, and inflamed joints of the lumbar and sacral regions. Increases blood flow to speed relief.

07333 100/box

MEDIPROXEN

Compare active ingredient to Aleve®. Long-lasting relief from pain associated with headaches, muscular aches, and minor arthritis. Effectively reduces fevers from colds and flu.

23733 100/box

ASPIRIN

Temporarily relieves minor aches and pains due to headache, muscular aches, minor arthritis pain, and toothache.

80548 250/box

80533 100/box

DIOTAME

Compare active ingredient to Pepto-Bismol®. Chewable, sugar-free antacid/diarrhea relief tablets. Soothes irritation with a protective coating action, without constipating.

22033 100/box

22083 30/box

DIAMODE

Compare active ingredient to Imodium® AD. Anti-diarrheal medications clinically proven for control and symptomatic relief of acute non-specific diarrhea.

20050 50/box

20069 6/box

MEDI-SELTZER®

Compare active ingredient to Alka-Seltzer®. Effervescent pain reliever and antacid with specially buffered aspirin.

13520 36/box

LORADAMED

Compare active ingredient to Claritin®. Relief of symptoms due to hay fever and upper respiratory allergies such as runny nose, itchy and watery eyes, sneezing, and itching of the nose or throat.

20350 50/box

DIPHEN

Compare active ingredient to Benadryl®. Relief from allergies and hay fever. May cause drowsiness.

18464 24/box

SORE THROAT LOZENGES

Fast-acting relief from sore throat and minor mouth pain.

17818 18/box

GUAICON DMS INSTYDOSE®

Alcohol-free and sugar-free liquid relief for coughs associated with colds and flu.

217B Single dose

COLD-EEZE®

Reduces the duration and symptoms of the common cold including cough, stuffy nose, sore throat, sneezing, post-nasal drip, and hoarseness.

45873 25/box

MEDI-LYTE®

Sodium-free, sugar-free, and lactose-free relief from heat stress, fatigue, and muscle cramping due to minerals lost to heat and perspiration.

03033 100/box

Consumer brand medications

The name brands you know in convenient tamper-evident, individual-dose packages.

Industrial/Environmental safety

Made in the USA and ISO-9001 certified, Eagle is a prime manufacturer of safety cans, safety cabinets, secondary spill containment pallets, poly drums, material-handling protective products, and cigarette receptacles.

TYPE-I SAFETY CANS

Eagle galvanized Type-I safety cans meet OSHA and NFPA Code 30 requirements and are UL and ULC Listed and FM approved for safe handling and storage of gasoline and other flammable liquids.

2 GALLON
UI20S

5 GALLON
UI50S

TYPE-II SAFETY CANS

Features two openings, one with a pressure-relief spring-closing lid for filling and one with an actuated pour valve with a flexible metal spout for safer controlled dispensing. FM, UL, and ULC approved and meet OSHA and NFPA Code 30 requirements.

5 GALLON
U251S

FLAMMABLE STORAGE SAFETY CABINETS

Keep flammable liquids near work areas in Eagle safety storage cabinets, constructed of 18-gauge steel. Sides, top, bottom, and doors are double-walled with a 1.5" air space between walls. Both vents, with 2" threaded fittings, have fire baffle and cap. Cabinets come in yellow high-gloss powder finish with red warning. Also has grounding attachment, three-point key lock, and 2" raised, leak-proof door sill.
